Determination of fair values

A number of the Group’s accounting policies and disclosures require the determination of fair value, for both financial and non-financial assets and liabilities. Fair values have been determined for measurement and/or disclosure purposes based on the following methods. When applicable, further information about the assumptions made in determining fair values is disclosed in the notes specific to that asset or liability.

i) Trade and other receivables

The fair value of trade and other receivables is estimated as the present value of future cash flows discounted at the market rate of interest at the reporting date. Short-term receivables with no stated interest rate are measured at the original invoice amount if the effect of discounting is immaterial. This fair value is determined at initial recognition and at the end of each reporting period for disclosure purposes.

ii) Derivatives

The fair value of interest rate swaps and forward exchange contracts are based on broker quotes. Those quotes are tested for reasonableness by discounting estimated future cash flows based on the terms and maturity of each contract and using market interest rates for a similar instrument at the measurement date. Fair values reflect the credit risk of the instrument and include adjustments to take account of the credit risk of the Group entity and counterparty when appropriate.

iii) Issued debt instruments

The fair values of bills, bonds and notes issued are measured by using quoted market price at the date of valuation.

iv) Other non-derivative financial liabilities

Other non-derivative financial liabilities are measured at fair value, at initial recognition and for disclosure purposes, at each annual reporting date. Fair value is calculated based on the present value of future principal and interest cash flows, discounted at the market rate of interest at the measurement date.

v) Lands

Lands accounted as property, plant and equipment are measured at revalued amount. Revalued amount for lands is the fair value at the date of the revaluation less any subsequent accumulated depreciation and subsequent accumulated impairment losses.

2.2 Summary of significant accounting policies

Standards issued but not yet effective and not early adopted

A number of new standards, interpretations of and amendments to existing standards are not effective at reporting date and earlier application is permitted; however the Group has not early adopted are as follows.

Classification of Liabilities as Current or Non-current (Amendments to TAS 1)

On 23 January 2020, IASB issued *Classification of Liabilities as Current or Non-Current* which amends TAS 1 *Presentation of Financial Statements* to clarify its requirements for the presentation of liabilities in the statement of financial position which is issued by POA on 12 March 2020.

The amendments clarify one of the criteria in TAS 1 for classifying a liability as non-current that is, the requirement for an entity to have the right to defer settlement of the liability for at least 12 months after the reporting period.

The amendments include:

- (a) Specifying that an entity’s right to defer settlement must exist at the end of the reporting period;
- (b) Clarifying that classification is unaffected by management’s intentions or expectations about whether the entity will exercise its right to defer settlement;
- (c) Clarifying how lending conditions affect classification; and
- (d) Clarifying requirements for classifying liabilities an entity will or may settle by issuing its own equity instruments.

The Group shall apply retrospectively these amendments for annual periods beginning on or after 1 January 2022 with earlier application permitted. However, with the announcement published by the IASB in April 2020, it stated that this change included the postponement of the effective date for one year to 1 January 2023.

The Group is assessing the potential impact on its consolidated financial statements resulting from the application of the amendments to TAS 1.

Disputes between the Group and the ICTA

The Company has filed various lawsuits against ICTA. These lawsuits are related with the sector-specific and tariff legislations and legislations with respect to the other operators in the market. The sector-specific disputes generally stem from the objections with respect to the provisions of interconnection legislation, legislation with respect to telecommunication services and infrastructure. According to the Article 99 of the Law numbered 7061 “Legislation on Amendment of Certain Tax Legislation and Other Certain Legislation” which was published on the Official Gazette numbered 30261 on 5 December 2017 and according to the sub-article 9 added to the Article 60 of the Law numbered 5809; customer returns that are not repaid to the customers within the 2-year period, shall be transferred to the Ministry of Transport and Infrastructure of the Republic of Turkey as revenue under the name of “Revenues for Universal Service”. Due to the fact that the 2-year period provided for in the relevant regulations has reached the end and requests for suspension of execution are rejected during this period, as of 31 March 2020, TL 117.076 provision provided for ICTA penalties and amounts to be repaid to customers or to the Ministry of Transport and Infrastructure of the Republic of Turkey due to ICTA resolutions (31 December 2019: TL 127.699).

12. COMMITMENTS AND CONTINGENCIES (CONTINUED)

The Ministry of Customs and Trade administrative fine

The Ministry of Customs and Trade conducted an audit at TT Mobil over the value added services that are provided to the subscribers and as a result of this inspection, an administrative fine amounting to TL 138.173 was imposed against TT Mobil based on the allegation that distant sales rules were disregarded. Upon such administrative fine, applications were filed respectively for the settlement first and then for the abolishment of the said administrative action with The Ministry of Trade. Our application for the abolishment of administrative fine was refused, and the settlement was rejected by TT Mobil in the course of settlement. A cancellation case has been initiated with stay of execution request regarding the penalties claimed. The trial was held on 6 November 2019. The Court accepted the case in favor of TT Mobil and cancelled the administrative fine. Ministry has appealed the court decision.

According to management decision, as of 31 March 2020 the Company has recognized no provision in the consolidated financial statements that has been made for fulfillment of the obligation to the extent that it is not probable that a material outflow of resources embodying economic benefit will have occurred.

Other issues

Provision has been provided in the consolidated financial statements for the probable court cases against the Group based on the lawyers’ assessments. The provision for such court cases is amounting to TL 61.706 as at 31 March 2020 (31 December 2019: TL 62.682). For the rest of the cases, Group lawyers commented that basis of those cases are not realistic and should be appealed. Therefore, no provision has been provided for these cases.
