3. SIGNIFICANT BOARD RESOLUTIONS

Significant Board Resolutions taken during the period are presented under Material Issues During the Period section.

4. PERSONNEL MOVEMENTS

Consolidated headcount as of the 31.03.2023 and 31.12.2022 are 38.079 and 39.433 respectively.

5. FINANCIAL RISK MANAGEMENT

Türk Telekom can be exposed to financial risks such as liquidity risk, currency risk, interest rate risk, and counterparty risk.

Within the framework of the strategy to minimise the liquidity risk, long-term financial debt is obtained from different geographical regions (the Americas, Canada, Europe, the Gulf, Japan, China, and Türkiye) and from a diversified pool of creditors (commercial banks, international financial institutions, official export credit agencies, and bond markets). This strategy enables the Group to have access to long-term financing on competitive terms, without being dependent on a limited group of funding sources.

With regard to the Eurobonds issued by Türk Telekom, the Group actively monitors the price and return dynamics of these bonds, which are tradeable instruments in the secondary markets in order to ensure optimal cash management strategy on total return and cost basis.

The need to partially procure supplies in relation to capital expenditures from foreign vendors and the need for financing through long-term and diversified funding sources cause Türk Telekom to bear liabilities in foreign currency. Hence, excluding the hedge transactions, Türk Telekom has net liabilities in foreign currency and is exposed to FX risk due to the fluctuations in exchange rates, which may have an impact on the financial statements.

Türk Telekom aims to keep the impact of FX exposure on the financial statements to a minimum with its FX risk management transactions. In this respect, Türk Telekom has a total hedge position of USD 2,371 million equivalent, details of which are provided in the footnotes of its audited financial statements. The total hedge position including the cash in hard currency, which provides a natural hedge against FX exposure is USD 2,491 million equivalent.

With regards to its financial assets, Türk Telekom aims to minimise the counterparty risk in accordance with the established counterparty limits and diversification policy. Türk Telekom carries out its hedge transactions regarding financial risks within the framework of the guidance and authorisation set by the Board of Directors.

¹ Hedged amount includes hedging of FX financial debt, currency protected time deposit, hedging of FX net trade payables and net investment hedge. Currency protected time deposit included in hedged amount is worth USD 320 mn.

05 May 2023 Dated Regulatory Disclosure - About Türk Telekom Renewable Energy Investments

In line with Türk Telekom Group's strategic investment plans and sustainability agenda, our Company plans to accelerate its Solar Power Plant (SPP) investments in the near future, in order to reduce our carbon footprint, contribute to climate risk management, and create financial value.

As part of this agenda, Turkish Electricity Transmission Corporation (TEİAŞ) has informed our Company of allocation of an instalment capacity of 317.8 MWe within the framework of the relevant Article 5/1h of the Regulation on Unlicensed Electricity Generation in the Electricity Market. TEİAŞ will be providing its opinion about technical details in the next step of the process. This capacity corresponds to nearly 50% of our current total electricity consumption. Furthermore, we have pending applications for further capacity of which the assessment processes continue.

In our view, this development represents a turning point that enhances our Company's potential in areas such as contributing to environmental protection, creating energy efficiency, and increasing the use of renewable energy. We believe we will make significant progress towards achieving Türk Telekom Group's sustainability goals with the initiatives that we will implement in the coming period.

Investments in solar power plants are planned to be undertaken in Diyarbakır, Ağrı, and Sivas provinces, on lands to be leased for 29 years from the General Directorate of National Property of the Ministry of Environment, Urbanization and Climate Change of the Republic of Türkiye.
