1. OVERVIEW OF TÜRK TELEKOM

Türk Telekom, with more than 180 years of history, is the first integrated telecommunications operator in Turkey. In 2015, Türk Telekomünikasyon A.Ş. adopted a “customer-oriented” and integrated structure in order to respond to the rapidly changing communication and technology needs of customers in the most powerful and accurate way, while maintaining the legal entities of TT Mobil İletişim Hizmetleri A.Ş. and TTNET A.Ş. intact and adhering to the rules and regulations to which they are subject. Having a wide service network and product range in the fields of individual and corporate services, Türk Telekom unified its mobile, internet, phone and TV products and services under the single “Türk Telekom” brand as of January 2016.

“Turkey’s Multiplay Provider” Türk Telekom has 17.1 million fixed access lines, 14.6 million broadband, 2.9 million TV and 24.6 million mobile subscribers as of June 30, 2022. Türk Telekom Group Companies provide services in all 81 cities of Turkey with 38,798 employees with the vision of introducing new technologies to Turkey and accelerating Turkey’s transformation into an information society.

Significant Board Resolutions taken during the period are presented under Material Issues During the Period section.

4. PERSONNEL MOVEMENTS

Consolidated headcount as of the 30.06.2022 and 31.12.2021 are 38,798 and 35,868 respectively.

5. FINANCIAL RISK MANAGEMENT

Türk Telekom can be exposed to financial risks such as liquidity risk, currency risk, interest rate risk, and counterparty risk.

Within the framework of the strategy to minimise the liquidity risk, long-term financial debt is obtained from different geographical regions (the Americas, Canada, Europe, the Gulf, Japan, China, and Turkey) and from a diversified pool of creditors (commercial banks, international financial institutions, official export credit agencies, and bond markets). This strategy enables the Group to have access to long-term financing on competitive terms, without being dependent on a limited group of funding sources.

With regard to the Eurobonds issued by Türk Telekom, the Group actively monitors the price and return dynamics of these bonds, which are tradeable instruments in the secondary markets in order to ensure optimal cash management strategy on total return and cost basis.

The need to partially procure supplies in relation to capital expenditures from foreign vendors and the need for financing through long-term and diversified funding sources cause Türk Telekom to bear liabilities in foreign currency. Hence, excluding the hedge transactions, Türk Telekom has net liabilities in foreign currency and is exposed to FX risk due to the fluctuations in exchange rates, which may have an impact on the financial statements.

Türk Telekom aims to keep the impact of FX exposure on the financial statements to a minimum with its FX risk management transactions. In this respect, Türk Telekom has a total hedge position of USD 2,359¹ million equivalent, details of which are provided in the footnotes of its audited financial statements. The total hedge position including the cash in hard currency, which provides a natural hedge against FX exposure is USD 2,552 million equivalent.

In relation to interest rate risk, Türk Telekom carries an interest-rate swap position equivalent to USD 450 million, details of which are provided in the footnotes of the audited financial statements. Türk Telekom manages its exposure to interest rate risk through swap positions and fixed-interest rate transactions such as Eurobond.

With regards to its financial assets, Türk Telekom aims to minimise the counterparty risk in accordance with the established counterparty limits and diversification policy. Türk Telekom carries out its hedge transactions regarding financial risks within the framework of the guidance and authorisation set by the Board of Directors.

¹ Hedged amount includes hedging of FX financial debt, currency protected time deposit, hedging of FX net trade payables and net investment hedge. Currency protected time deposit included in hedged amount is worth USD 243 mn.
